DJJ Honors Academy 45 Graduates

The Department of Juvenile Justice recognized 48 graduates of Academy 45, in Elizabethtown, on April 1, 2005. To date, 1,374 DJJ employees have completed the training academy.

Academy 45 participants who met EKU admissions criteria will be awarded 6 hours of COR 106 undergraduate credit for their Academy training. Academic credit will be processed in the Fall 2005 and will appear on student transcripts in January 2006.

Academy 45 graduating class, Elizabethtown, April 1, 2005

Academies 46 & 47 to be held in Richmond

DJJ will begin training new staff at Academy 46 beginning May 15, 2005. Academy 47 will follow in July. Both Academies will be held at the Juvenile Justice Training Center located on EKU's campus. Graduation dates will be scheduled at a later date. For additional information on Academy trainings please contact the DJJ training office at 859-622-8284.

DJJ Revises Academy Training Program

DJJ has made several revisions to the Academy training program that will be effective beginning with Academy 46. The new format will include 6 1/2 weeks of training, including two new courses, Prison Rape Elimination Act and Community Safety. On-the-job training will no longer be part of the Academy, but will be handled on-site at each participants respective facility. Changes have also been made to the physical skills training and more hours will be dedicated to this component. Revisions also include several day trips to DJJ facilities.

DJJ HIGHLIGHTS

Hibbitts Promoted to Morehead YDC Superintendent

Kelly Hibbitts has been appointed as the new superintendent of the Morehead Youth Development Center (MYDC). Mr. Hibbitts began his career in 1993 as a Youth Worker and Family Therapist at the Barnabas Home. He joined DJJ in 1999 as a counselor at the Cadet Leadership Educational Program where he led the first graduating class through the Kentucky's first juvenile boot camp and the first Intensive Aftercare program. In 2002, Kelly joined the Division of Staff Development as a training instructor in the pre-service academy branch. Kelly began working at the Morehead facility in October 2004, as interim superintendent, and was officially appointed in January 2005.

As Superintendent, Kelly plans on initiating Intensive Aftercare services for the youth at MYDC. This will include a five month residential phase and then a four month aftercare phase to include visits in the community from the youth's MYDC counselor. Kelly also plans on expanding the program by 10 beds to include a Vocation Living Unit where the girls would be able to work off campus and attend school at Morehead State University or the Rowan County Community and Technical College. A program emphasis will be placed on learning independent living skills.

Coleman Hired as Title II DMC Coordinator

Andrea R. Coleman was hired in March as the Disproportionate Minority Contact Specialist (DMC) working in partnership with the Kentucky Department of Juvenile Justice. As DMC Coordinator, Ms. Coleman will provide staff support to the Subcommittee for Equity and Justice for all Youth (SEJAY), which provides education, technical assistance, and funding to communities in Kentucky that have a high rate of youth of color in secure detention facilities compared to their rates in the general population.

Ms. Coleman holds a Bachelor's Degree in Political Science from Berea College and is a Master's Candidate in Political Science with a concentration on Judicial Studies and Constitutional Interpretation at the University of Kentucky. Her work experience includes working with the Fayette County Sheriff's Office in the Victim Services Division, coordinating the Fayette County Juvenile Delinquency Prevention Council on behalf of the Kentucky Department of Juvenile Justice, and managing various state and local grant initiatives dealing with delinquent youth that includes violence prevention, and domestic and family violence.

WEBINSERVICE TRAINING

Brenda Perry

When the WebInservice recordkeeping/online training system was launched November 1, 2003, the initial focus was on its recordkeeping component. All classroom training events conducted for DJJ staff since that date have been entered into the WebInservice system (6,491 events as of April 20, 2005!). A variety of reports are accessible utilizing this information, including reports detailing facility training, individual learner information, course attendance and event enrollment. This capability facilitates program monitoring, verification of staff training, and individuals' ability to track their own training.

WebInservice's potential has been further demonstrated since online training was introduced in October 2004. New Employee Orientation training was assigned to all DJJ staff at that time to familiarize learners with the system layout and the lesson/testing process. Since then, nine additional modules have been put online and are either ready to or have been assigned to specific staff. The ability to complete training online reduces the amount of time an employee must be away from his/her job so, while being cost-effective, online training also assists facilities with the issues of staff coverage and time management.

As more aspects of WebInservice's capabilities are realized, DJJ will be able to further ensure the quality of training available to its employees, ultimately ensuring quality treatment for the youth we serve.
